- Electrical Service is brought from the nearest column or floor port into the booth. The electrical outlets or boxes are placed in the rear of the booth along the pipe & drape line.
- Electrical boxes are left accessible inside floor ports for island booths with no pipe and drape lines and no columns in their booth space.
- For 208V & 480V connections, we require floor plans so that we may provide the electrical service in a convenient location within the booth.
- Exhibitors are responsible for distributing their own 120V electrical cords and plugging in their booth equipment. Exhibitors may choose to:
 - Hire labor from the General Service Contractor;
 - Hire a third-party Installation & Dismantle (I&D) team to perform the distribution work;
 - Bring their own company electrician to perform distribution and hard wire connections as long as he/she is a full-time employee of the exhibiting company.

- All services listed include labor to install and remove said service. Rates do not include connecting of equipment, tracing of malfunctions, special wiring, or repairs. Frequently Asked Questions – Electrical

If the MCCA doesn't run my electrical cords, and I can't do it myself, who should I send my electrical layout plan to?

If you have booth floor plans that include electrical layouts, you should share that information with your preferred setup personnel. If you are working with a third-party exhibit company, they may run the cords for you. If you need to hire labor to run cords for you, the show's General Service Contractor can help you. Typically, the General Service Contractor will include an Electrical Cord Labor Form in the Exhibitor Kit. The MCCA is happy to keep any floor plans on file for reference. In fact, we recommend that you forward your electrical layouts to Exhibitor Services for all 208V and 480V connections so that we may place the initial drop in the most convenient location possible.

How do I know if I need a 208V or 480V connection?

Most exhibitors do not require special connections like a 208V or 480V connection. Many times, these types of electrical services are required for heavy equipment and/or specialized machinery. Kindly consult with the equipment manufacturer, name plate rating or installation technician for specific details. Exhibitors who bring their own distribution panels may need one of these special connections.

How do I know how much power I need to order?

When determining how much power to order for a booth, it is helpful to know how much total power is required for the equipment in your booth space. Below, we have outlined some standard electrical requirements (requirements may vary).

- Standard Laptop.....250-550 watts
- Standard Desktop PC.....400-700 watts
- Standard Plasma TV.....300-400 watts

Items like laptops, standard booth lights, and televisions may be grouped together on one circuit provided they do not exceed the overall limit of the circuit or the surge protection device. There is some equipment that requires its own circuit to run properly. For example, a microwave or refrigerator requires its own dedicated circuit, so a laptop and refrigerator should not use the same power source.

I am an International Exhibitor and my equipment requires a converter to step down from 220V to 208V. Can I rent a converter from the MCCA?

The MCCA does not rent or supply power conversion equipment. Exhibitors are required to bring their own to the show.

I can't find 208V or 480V overhead service listed on your online ordering site. How can I order this service?

208V & 480V overhead services are limited in our convention centers. All requests for such connections must be approved by an MCCA electrician. To discuss availability, please call the MCCA Exhibitor Services Department. Once approved, an Exhibitor Services Associate will assist you in placing your order.

Frequently Asked Questions – Cleaning

Will my booth be automatically vacuumed or mopped prior to the first show day?
 Exhibitor booths will not be vacuumed or mopped unless the service is ordered through the MCCA prior to the show opening.

Do I need to order both the Initial Vacuum and the Daily Vacuum if I want my booth to be vacuumed everyday including the first show day?
 No, it is only necessary to order one vacuuming/mopping service. Daily Vacuum/Mop *includes* the initial, first day service. The Daily + Porter Service also includes the initial, first day service. Shampoo service, on the other hand, may be ordered alone or partnered with any other cleaning service.

Why is the rate on your website different from the rate listed above?

The service rates are the same on both the form and the online order page; they are just presented differently. The form shows the daily unit price for the service, while the online page shows the total price for the duration of the show.

If I order cleaning service, when can I expect my carpet to be cleaned?

If the show you are attending opens in the morning, all of the cleaning usually occurs the night before the show opening. If the show opens in the afternoon, all of the cleaning usually occurs in the morning before show opening. Our cleaning staff will not remove visqueen (the plastic covering) from your carpet; exhibitors are responsible for removing their own visqueen.

Frequently Asked Questions – Telephone

How do I know if I need a single-line or a multi-line service?

Single-line phones are just like most household phones. They can be used for fax lines, credit card machines, standard telephones, and even to dial-up internet service (although we do not recommend this method of internet connectivity).

I have a wired credit card machine. Do I need to program anything specific for the machine to work on your single-line service?

Yes. Please preprogram your machine to dial-9 before it dials your credit card company's number.

How do I receive my phone number, dialing instructions, billing information and phone/fax equipment?

Please visit the MCCA Exhibitor Services desk onsite to pick up your equipment and /or to supply a credit card for line usage. At this time you will receive assigned phone numbers, dialing instructions and billing information.

How can I place restrictions on my phone line?

If you wish to place restrictions on a phone line, (e.g., local and toll-free outbound calls only), please contact MCCA Exhibitor Services prior to move-in to submit this request. Otherwise, all phones will be installed as unrestricted lines.

Manually configured services require some data entry of IP addresses into the computer before the computer may access the internet.

300 Kbs Managed Service\$1,175.00.....\$1,468.75

The 300 Kbs comes with 1 public IP address for use on one computer with the option to purchase additional IPs for additional computers. Frequently Asked Questions – Internet & Technical

Do you have wireless internet?

The MCCA offers free wireless internet service throughout meeting rooms, lobbies, and expo halls; just open your internet browser and look for the BCEC or Hynes Wireless Network. This service is designed for casual users and not guaranteed. If you are relying on the internet to showcase your product or services we strongly recommend a wired internet connection for guaranteed service.

I see that you don't offer hubs for rental. What is the difference between a hub and a switch? Can I bring my own hub or switch?

The MCCA offers rental of switch devices instead of hubs because switches are known to provide better performance with a lower failure rate. Exhibitors are welcome to provide their own hub or switch for all internet services.

What is bandwidth and how do I know how much I need?

Bandwidth is the “size of the pipe” that data can traverse. The bigger the bandwidth, the faster data can be transferred. So, the 500 Kbs has more bandwidth than a 300 Kbs. To find out how much bandwidth you require, please consult with a technical representative in your company or look for program specifications listed with any demonstrations or downloads you plan to run.

I need to access my company's network while I'm exhibiting at your facility. Which service will allow me to do this?

Exhibitors who need to connect remotely to their company's network using a VPN (Virtual Private Network) with authentication information like passwords, certificates, or “tokens” should choose a 300 Kbs service or higher. While the 200 Kbs does allow exhibitors to use a VPN, some VPN clients have experienced difficulty connecting because the 200Kbs service uses NAT (Network Address Translation). NAT is a process by which the MCCA can provide thousands of IP addresses to clients while only using a few “real” internet routable addresses.

What is a VLAN?

A VLAN (Virtual Local Area Network) allows a network of computers to behave as if they are connected to the same service even though they may actually be physically located in different areas around the facility. One of the biggest advantages of a VLAN is that when a computer is physically moved to a different location, it can stay on the same VLAN without any hardware reconfiguration.

I ordered a switch and cables, how and when do I get them?

When you are ready for your switch and internet cables, please visit the MCCA Exhibitor Services Desk. After the show, rented switches must be returned to the Service Desk or you will be charged a replacement fee.

Rigging Services

The MCCA provides rigging and overhead lighting services through our service contractor, JCALPRO.

Planning Ahead for Rigging & Lighting Services

Diagrams and booth layouts are essential for planning rigging and lighting services. In order to ensure efficient delivery of required services, Exhibitors must submit rigging plots, drawing, blueprints, or engineers' certification with their orders to the MCCA Exhibitor Service Department. Diagrams must include the location, dimensions and weight, and the height from the floor to the top of the suspended item. Diagrams must also show booth outline with aisles or neighboring booths marked for reference and orientation.

The MCCA offers package rigging solutions for Exhibitors with basic and straight forward sign hanging needs. To qualify for the packages, Exhibitors must be flexible with regards to days and times of load-in and take-down.

Basic Rigging Package	\$1,550.00	\$1,684.00
------------------------------------	-------------------------	-------------------

This package includes all lifts, labor, and rigging equipment (cables, pipes, and hardware) necessary to install and take down one sign/banner weighing less than 150lbs and measuring less than 20' in length or diameter. The package service is provided during standard service hours, Monday-Saturday 7am – 12am, except holidays. If service is required outside these times, then a Team Overtime Hour must be ordered in addition to the package.

Electrical Rigging Package	\$1,794.00	\$1,988.00
---	-------------------------	-------------------

This package includes the Basic Rigging Package plus labor to connect electrical service to an Exhibitor sign/banner. Overhead electrical service for rotator, motor or lighted sign must be ordered separately. Please see Electrical services section for details.

Team Overtime Hour	\$244.00	\$304.00
---------------------------------	-----------------------	-----------------

Exhibitors may request rigging service on Sundays, holidays or outside the package service hours (Monday-Saturday 7am – 12am). In this case, a Team Overtime Hour must be ordered for each rigging package ordered.

Custom Rigging & Lighting Solutions

The MCCA/JCALPRO also offers customized rigging and lighting solutions for Exhibitors with more complex or unique requirements. This option is best suited for Exhibitors with larger signs, multiple signs, and/or overhead lighting needs. Custom Rigging and Lighting Solutions still require flexibility in load in and load out time. If you require a specific load in or load out day and/or time, hourly rates may apply (see Terms and Conditions – Rigging below).

Custom Rigging & Lighting solutions may only be ordered with a pre-arranged quote. Please contact JCALPRO at 617-954-2345 to initiate this process. Quotes will be issued in an easy-to-order format, and will typically include a base Rigging Package for labor charges and some combination of the following items as necessary.

Terms & Conditions - Rigging

- **Hynes Rigging:** JCALPRO is the preferred rigging vendor at the Hynes Convention Center. If a sign requires a motor, electrical rigging, and/or truss, JCALPRO must hang the sign. Otherwise, the exhibitor may hire the general service contractor to hang signage.
- **BCEC Rigging:** JCALPRO is the exclusive rigging vendor at the Boston Convention & Exhibition Center (BCEC). If an exhibitor is exhibiting at the BCEC and requires rigging services for the booth, JCALPRO is the only vendor authorized to hang signs, banners, or lighting in the booth space.
- If an Exhibitor requires specific load-in/load-out dates and/or times, then a base rigging package may not be applicable. In this case, a special quote for required crew and lift equipment will be prepared using the following hourly labor and weekly lift rental rates:

Any equipment, signs, products etc. deemed to be unsafe for overhead suspension by MCCA/JCALPRO will be substituted or denied.
- The use of *any* type of tape/adhesive for attaching signs, banners, or decorations to the building walls or decorative surfaces is not permitted.

Frequently Asked Questions – Rigging

How do I know if I qualify for the Basic Rigging Package Rate?

Find out the dimensions and weight of your sign. If your sign weighs less than 150 pounds and is less than 20' in length or diameter and does not require electrical rigging, truss, or motors, you will qualify for the Basic Rigging Package. If your sign is motorized or needs electrical rigging (for example a rotating sign or a sign with lights), you qualify for the Electrical Rigging Package.

Can I order lighting to be suspended from the ceiling?

If you would like to order lights to brighten up your booth or illuminate specific objects, you will need to get a quote from JCALPRO. In most cases, lights cannot be attached to our ceilings. Instead we can provide you with truss, using motors, to create a lower “ceiling” and then hang lights from that truss. We will require a diagram showing your booth layout and exactly what you want illuminated in order to put together a quote.

Do I ship my sign to you to put it together?

No. Although JCALPRO provides labor to hang the sign, the General Service Contractor (GSC) handles all shipments. You may build your sign or hire the GSC to put it together for you. When the sign has arrived at the building and has been assembled, we will hang it for you. Be sure to keep this in mind when making your time and day requests for sign hanging.

Can I request load in and load out times?

Yes, the Rigging Order Form has a space for you to indicate your preferred up and down times. Please note that your preferred timing is not guaranteed; however, we do try our best to cater to your requests. If you absolutely need a specific install or take down time, additional charges will apply. If you do not provide a diagram or layout prior to load-in, then you may experience set-up delays and additional cost.

What type of diagrams should I send?

The most useful diagrams are on a proportioned grid to show the dimensions of the booth, the exact desired placement of hanging items, and orientation of the booths around yours. As a general rule, pictures from previous shows and pictures of the sign only are not as helpful as current diagrams of the entire booth space with the placement, height, and weight of the sign(s) or hanging item(s).

Frequently Asked Questions – Plumbing

Do all water connections need a drain?

While most water connections do require a drain service, there are some cases where the drain is unnecessary. When the water provided is being consumed or evaporated, a drain is not needed. For example, exhibitors using water service for a coffee machine do not need to order a drain because the water is being consumed.

Will you provide the fittings and hoses for my water and drain connections?

To ensure that your booth's equipment runs properly we ask that you supply your own regulators, filters, and hoses.

When would I need to order a Fill and Drain Service?

Some of the most common reasons exhibitors order fill and drain are for items like fish tanks, pools, tubs for display, or running water displays. We use large hoses to fill vessels requiring water and then use existing drains in the floor to remove the water at the end of the show. Exhibitors are not permitted to bring their own water or use MCCA sinks to fill their own equipment.

My booth requires a sprinkler system. What plumbing service should I order?

If your booth requires a sprinkler system, you will need to order an individual water connection specifically for this purpose.

My exhibitor kit says I need to order a hand washing unit because I am planning to prepare food in my booth. Do you provide these units?

ARAMARK, our exclusive in-house catering company, can provide a hand washing unit that includes a small hand washing sink, paper towels, soap, and a discard bucket. Please consult your exhibitor kit for ARAMARK information or contact them directly at BCEC (617-954-2382) or Hynes (617-954-2284).

Do you allow Exhibitors to bring Helium balloons into your buildings?

No, unfortunately we do not allow exhibitors to bring helium balloons into the buildings.

Security Services

The MCCA provides booth security service through our exclusive service contractor, AlliedBarton Security.

Security Guard (Booth)	Discount	Standard
-------------------------------	-----------------	-----------------

Per Hour per Officer	\$26.00	\$32.50
-----------------------------------	----------------------	----------------

The MCCA offers uniformed public safety officers to cover shows and events. Officers are scheduled at a 4-hour minimum and are available from move-in to move-out, around the clock. Orders must be placed at least 48 hours in advance of the requested service date.

Frequently Asked Questions – Security

When do you recommend ordering security for an exhibitor booth?

Our public safety department strongly suggests ordering security for booths planning to have VIP celebrity appearances, book signings etc., to monitor crowd control and escort as needed. Also, exhibitors with expensive or rare equipment in their booths may consider security for the overnight hours between show end and the next day's show start.

Is there general overnight security in the exhibit hall?

The MCCA provides 24 hour security coverage for the facility; however, security coverage for the exhibit hall is determined by the show organizer and may vary from event to event.
